

God Is With Us

By David Zimmel

C **F** **C** **F** **G**
Like the mist we see in the valley, or a growing, gathering storm
C **F** **C** **G** **F** **C**
So our God is present among us. He is here, our lives are transformed.
C **F** **C** **F** **G**
I will wait for you in the morning, I will look for You through the day,
C **F** **C** **G** **F** **C**
That our love for You would be growing, as we hear Your word and obey.

Am **G** **F** **C**
For Your Love... has brought us together,
Am **G** **F** **C**
And Your Love... is faithful and true.
Am **G** **F** **C**
In Your Love...we give ourselves freely.
Am **G** **F** **C**
For Your Love...we give everything to You.

As the dawn-light breaks in the morning, now our God has sent us His Son.
Our great King, a small, little baby, He's the sign: the new age has come.
From our sins He's chosen to save us, so at last from death we'll be free,
And live on in His new creation, with His death as our victory.

Just like branches joined to a grape vine, so our God calls us to be one,
It's a work of His Holy Spirit, that the world would follow His Son.
So we move to live close together, and commit to share what we own;
That His life be present among us, and His love for all would be known.
